Welcome to ISITES 2026 Annual Conference Meeting

Dear Colleagues,

Endocrine surgery has advanced remarkably over the past century, improving safety and outcomes in thyroid and parathyroid procedures. Yet, challenges remain, particularly in preserving recurrent laryngeal nerve integrity and maintaining parathyroid function. Despite advances in surgical specialization, hypoparathyroidism remains a significant concern following thyroidectomy.

Over the past decade, fluorescence and optical technologies have emerged as transformative tools to enhance intraoperative visualization, improve parathyroid identification, and assess gland viability. Building upon the progress and collaborative spirit of prior meetings, including the Symposium on Parathyroid Fluorescence (SPF) and previous ISITES annual conferences, ISITES 2026 will once again bring together surgeons, engineers, and scientists dedicated to advancing endocrine surgery through technological innovation.

We invite you to join us in Washington DC for the 8th Annual ISITES Conference (<https://isitesconference.org>), themed “Future Technologies for Endocrine Surgery.” This meeting will feature live surgery sessions, invited talks, oral and poster presentations, and interactive panels showcasing the latest advances in fluorescence imaging, AI integration, robotic surgery, and novel device development. We especially encourage active industry participation to foster translation of innovation into clinical practice.

Your partnership will help us advance surgical innovation and connect global leaders driving the next generation of endocrine technology.

Conference Chairs: Richard Cha, PhD (Children’s National / GW-SMHS), Salem Noureldine, MD (GW-Surgery), Kaitlyn Frazier, MD (Johns Hopkins Medicine)

ISITES Leadership: Anita Mahadeven-Jansen, PhD (Vanderbilt Univ.), Quan-Yang Duh, MD (UCSF), Kerstin Lorenz, MD (Halle Univ.), Frédéric Triponez MD (HUG)

ISITES Council: Carmen Solórzano, MD (Vanderbilt Univ.), S.P. Balasubramanian, MD (Sheffield), Pablo Moreno Llorente, MD (Bellvitge), Richard Cha, PhD (CNH/GW-SMHS).

Local Chairs: Chung Hyuk Park, PhD (GW-BME), Reza Monfaredi (CNH/GW-SMHS)

Corporate Sponsorship & Exhibition Opportunities

The International Society of Innovative Technologies for Endocrine Surgery (ISITES) invites corporate partners, medical device companies, and institutions to support the ISITES 2026 Annual Conference. This global meeting will bring together leading researchers, clinicians, and engineers to explore the future of endocrine surgery technologies.

Sponsorship Opportunities

Tier	Contribution Level (USD)	Benefits
Platinum	\$50,000	• Premier logo placement on all conference materials • Advertisement in Final Program: 1-page • Complimentary exhibition booth • 5 complimentary registrations • Verbal acknowledgment at opening/closing ceremonies • Opportunity to host an industry hands-on workshop at a dedicated classroom (or a networking dinner on 1st day or 3rd day) • Potential livestream opportunity
Emerald	\$30,000	• Prominent logo placement on conference materials • Advertisement in Final Program: 1-page • Complimentary exhibition booth • 4 complimentary registrations • Recognition in printed program and website • Opportunity to host an industry hands-on workshop at a dedicated classroom
Gold	\$20,000	• Logo on program, website, and signage • Advertisement in Final Program: ½-page • Complimentary exhibition booth • 3 complimentary registrations • Recognition during networking reception
Silver	\$10,000	• Logo on website and printed materials • Advertisement in Final Program: ¼-page • 2 complimentary registrations • Acknowledgment in the closing remarks
Bronze	\$5,000	• Logo on website and printed materials • 1 complimentary registration

Exhibition Opportunities

Over 250 leading surgeons, engineers, and researchers from more than 15 countries are expected to attend. Exhibitors will have the opportunity to showcase their products and technologies to a targeted audience of surgeons, clinicians, and biomedical engineers. Exhibit spaces will be located in high-traffic areas (according to sponsorship levels in order) to maximize visibility.

- Standard 6' table with two chairs
- Company listing in the conference program
- Two complimentary exhibitor passes
- Networking access during receptions and breaks

Donation Support

Support the next generation of endocrine innovators by contributing to travel awards, best presentation prizes, or student fellowships. Your contributions directly empower trainees and early-career investigators, fostering innovation and global collaboration. All donors will be recognized in the official conference program and website.
